Information

The lightweight plastic shells are available in nine standard colors and made of high-impact polyethylene (PE-HD). They are also resistant to chemical influences. Color and shape are therefore retained even under extreme loads and they meet even the toughest industry-specific standards. Transportation boxes are particularly versatile when it comes to their fields of application. In addition to the standard range, they can be dimensioned to almost any size and are therefore suitable for a huge number of potential transport and storage goods. Depending on the version, the transport box also meets special civil and military packaging standards, such as the ATA 300 (Category I).

Trolley version with wheel 400 150/400 165 possible

Measurements

Interior (l x w x h (base + lid)) [mm]:
675 x 345 x 395 (295 + 100)

Exterior (l x w x h (base + lid)) [mm]:
740 x 395 x 430 (310 + 120)

Weight 6,9 kg

Colours

RAL: similar to
9011, black

RAL: similar to
7016, dark grey

RAL: similar to
5002, blue

RAL: similar to
2002, red

RAL: similar to
2004, orange

RAL: similar to
1021, yellow

Standard equipment

Catch

Catch, small (steel, galvanized)

Quantity: 2

Article nr.: 400 128

Handle

Handle, large (steel, galvanized)

Quantity: 2

Article nr.: 400 120

Hinge

Hinge, 50x50mm, Ø5,0 (stainless steel)

Quantity: 3

Article nr.: 400 012

Webbing lid stay

Webbing lid stay (different lengths):
400 010a: 180mm (distance between
middle of ears)

400 010b: 170mm

400 010c: 315mm

400 010d: 460mm

Quantity: 2

Article nr.: 400 010

Aluminium profile, small

Aluminium profile, small

Quantity: 1

Article nr.: 300 052

Options

Trolley edition

Container with wheels and depending on size with pull handle or pull out handle

labeling

Stickers, laser engraved sign, screen printing, hot stamping, lid embossing

Equipment

Alternative fitting parts

Black edition

Fitting parts and aluminium frame are black coated, stainless steel possible

Stainless Steel edition

Fitting parts are made of corrosion-resistant stainless steel

Removable lid

Lid of box/case/trolley is removable completely

Watertight according to IP67

Container is watertight according to tightness standard IP67

Watertight according to IP65

Container is watertight according to tightness standard IP65

Watertight according to IP54

Container is watertight according to tightness standard IP54

Reinforcements

Container reinforced with aluminium frames for special stability requirements

Enabled for fork lifting

Container enabled for fork lifting/lift trucks

case edition

Container with handle at the front (middle), portable and putting down as case

ATA300

Container according to standard ATA300, Category I

Service

solution development

We are happy to develop a solution for your packaging task with you

design development

Design, calculation, constructive design of container

component measurement

Contours and dimensions are measured precisely for a perfect fitting foam

component placement

customer components are placed accurate in containers

Drop test

Planning, implementation, evaluation and documentation of standardized drop tests

Certificates

Certificates, e.g. Federal Institute for Materials Testing and Research (BAM)

Logistics/ transactions

Blanket order, stock, customs clearance, export, etc.

OEM solutions

Design of special and customized containers

new developments

Design of new tooling for tailor made containers
