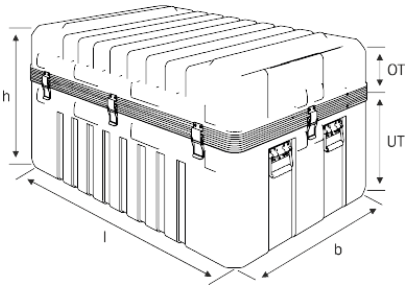
Information

The lightweight plastic shells are available in nine standard colors and made of high-impact polyethylene (PE-HD). They are also resistant to chemical influences. Color and shape are therefore retained even under extreme loads and they meet even the toughest industry-specific standards. Transportation boxes are particularly versatile when it comes to their fields of application. In addition to the standard range, they can be dimensioned to almost any size and are therefore suitable for a huge number of potential transport and storage goods. Depending on the version, the transport box also meets special civil and military packaging standards, such as the ATA 300 (Category I).

Trolley version with wheel 400 150/400 165 possible

Measurements



Interior (l x w x h (base + lid)) [mm]:
1300 x 700 x 195 (95 + 100)

Exterior (l x w x h (base + lid)) [mm]:
1370 x 765 x 255 (120 + 135)
